

# ZIONIST STRANGLEHOLD ON USA TIGHTENING

Leon Trotsky (Real name Bronstein) has been associated in a major way with the history of Russia, but he was not a Russian. He was a New Yorker, trained in the Headquarters of Worldwide Smash-and-Grab, Inc. He very nearly succeeded in the murder of the Russian nation, before being murdered himself. Leon Trotsky was one of the major monsters of history. He has been the object of numerous flattering biographies issued by the literary charlatans of New York. He has been praised in THE NATION and THE NEW REPUBLIC. In order to throw this picture into balance, let us take a look at some of the things Trotsky actually did.

Trotsky believed in genocide. He undertook the wholesale murder of the native Russian intellectual class. Under the guise of "Proletarian Revolution," he carried out a gargantuan act of genocide. His purpose was to kill all non-Jewish intellectuals in Russia, in order to make Russia dependent upon Jewish management. Trotsky was a bloody mass murderer, and not at all the naive idealist whom the phoney writers of THE NATION and the NEW REPUBLIC have shown to us.

Trotsky pretended to be a "Proletarian Revolutionist," but he was the agent of Jewish banking interests in Europe and New York. Under the "New Economic Policy" in Russia, Trotsky was busily engaged in making Russia a vassal state, dominated by the Jewish Capitalists. Trotsky was only against GENTILE capitalists, not against Jewish capitalists.

Leon Trotsky typified what the October Revolution was really about. It was not a popular movement, not a working-class movement, not a real mass revolution at all. It was a blatant effort by Jewish bankers to grab Russia and make it into a vast private estate of their own. Their eyes were full of insane greed when they thought of the enormous riches which could be squeezed out of the suffering people of Russia. With the wealth squeezed out of Russia, they could buy the complacent governments of the Western nations, and their grip upon the whole structure of world power would be secure. Yet, so skillfully was the Jewish propaganda job done, that for forty years the leadership classes of the United States thought of Marxism as a working-class movement, and, instead of attacking the Jews, leveled their attacks against the ordinary workingman. The Jew does not care how often or how violently you attack the working class. The activities of American "Anti-Communists" do not worry the Jew-Marxists at all. Our attacks always hit far wide of the real mark. American "Anti-Communism" is, in general, false and worthless. Our Congressional Investigating Committees labor mightily and bring forth only mice. We pose before the world as an "Anti-Communist" nation.

Let us look at the real record.

The October Revolution in Russia was financed from New York. World Jewry at that time openly sang the praises of Kuhn, Loeb and Company and the "Dictatorship of the Proletariat." Lenin himself said, "Socialism would have been impossible without the help of the great banks." The ideologists who did the propaganda job which blinded the hapless Russians were trained in New York.

From that day to this, our Government, under strong Jewish influence, has TALKED a good game of "Anti-Communism," and has helped in every major way to spread Marxism. The intellectual forces which keep Marxism in existence, even in Russia, are largely generated in New York. Anyone who reads the New York Times with a knowing eye can discern the "Party Line."

The Party Line goes thus:

"The 1917 Revolution in Russia was wonderful. For a time, it put the Jews into power. Then there was a bit of trouble about a vulgar character named Josef Stalin, who was anti-semitic, and who caused all manner of trouble. He simply did not seem to know that Jews are a super-race, to be treated with respect. We demand de-Stalinization. Once

**LEON TROTSKY**, New York trained Jew who undertook the wholesale murder of native Russian intellectual class.

Russia is properly de-Stalinized, we can murder again the growing educated class of native Russians, and put our Jews back into power in Moscow. Meanwhile, we will use both Mao and the United States to put pressure on Russia. Our dervishes will whirl, and our wise men will pontificate, and once again we will conceal our vast villainy behind a smoke screen of fraudulent idealism, which the Gentiles will be too stupid to penetrate. We will keep the Goy capitalists busy attacking the Goy workers, and thus prevent any unity from developing among the Goyim. We do not intend to tolerate the Goy capitalists anyway. They will become proletarians. We will even change their racial makeup, by breeding the white and colored races with each other. See! We have shipped thousands of Chinese workers to Poland. Poland is already overpopulated and has unemployment, and needs no Chinese workers. All the same, we are going to interbreed the Europeans with Orientals. So we ship Chinese coolies to Poland. Meanwhile, the Trotskyite ideology dominates American university campuses, where we have set the beards-and-sandals nuts to work demonstrating against the war in Viet Nam. We do not mind American Anti-Communism at all. It is a fine exercise in futility, and will keep the Goyim busy and out of mischief."

The tired and outworn apparatus of American "Anti-Communism" is practically worthless. It ignores too many realities. It tries to pretend that "Communism" is a vast, shadowy conspiracy involving people of many races, a form of idealism to which the working class and the poor are especially susceptible. It forever evades the real fact that Marxism is JEWISH. It also evades the fact that the United States, far more than Russia, has been responsible for spreading Communism around the world. It was American diplomacy which divided Korea, which put Mao into power in China. American diplomacy, under Jewish influence, did its level best to

## FATE OF WORKERS UNDER ZIONISM as disclosed in Protocols of Elders of Zion, Protocol III.

7. "We appear on the scene as alleged saviours of the worker from this oppression when we propose to him to enter the ranks of our fighting forces — Socialists, Anarchists, Communists—to whom we always give support in accordance with an alleged brotherly rule (of the solidarity of all humanity) of our social masonry. The aristocracy, which enjoyed by law the labour of the workers, was interested in seeing that the workers were well fed, healthy and strong. We are interested in just the opposite — in the diminution, the killing out of the GOYIM. Our power is in the chronic shortness of food and physical weakness of the worker because by all that this implies he is made the slave of our will, and he will not find in his own authorities either strength or energy to set against our will. Hunger creates the right of capital to rule the worker more surely than it was given to the aristocracy by the legal authority of kings."

bring a Communist Revolution in Italy at the end of World War II. The American taxpayer's money was spent to pay for the murder of Italian Anti-Communists. Men wearing American officers' uniforms contacted the Italian Communist underground and laid plans for a Red takeover in Italy.

The picture which has been drawn in the popular press is a bad joke. We have been given the picture of a "Red Russia" plotting to spread Marxism through the world. The real truth is that, but for Russia, all of us probably would have been living under Marxism years ago. Especially under Stalin, Russia resisted Marxism better than we have. Stalin converted the Communist Parties of the world into instruments of a traditional Imperialism. He forbade them to start successful revolutions, which would only have played into the hands of the Jews. Stalin was no friend of the United States. He regarded us as an ultimate victim of his Imperialist plans. It is important, though, to understand that Stalin was an IMPERIALIST, not a Marxist. Marxism, to Stalin, was for US, not for him. He knew perhaps better than any other man on earth how destructive Marxism could be.

He knew all about the Jewish bankers of New York who financed the October Revolution in Russia, who financed the building of the structure of "International Communism." Stalin hated the United States, mainly because he regarded us as being under "RED" domination. He expressed his opinion of our Jew-Marxists perfectly when he ordered the murder of old Leon Trotsky. The man who actually killed Trotsky was no ordinary murderer. He was a gentleman of culture and quality. He knew himself to be an instrument of history. The killer of Trotsky spent many years in a Mexican jail and never revealed his real name. After his release, he disappeared into Russia and has not been heard from again. This man saved not only Russia, but also the United States, from Marxism, for it was Trotsky's intention to EXPEND Russia in an effort to promote the Jew-Marxist grab for power in the West. The murder of Trotsky slowed the whole Jewish plan for world domination to a walk.

Russia has tried in several ways to deal with the Jewish problem. Russia wants to absorb the Jews and make them disappear. If you are a smart Jew in Russia, you know that the smart thing to do is to marry a Russian, and to stop being a Jew. Sever your connections with the Jewish intellectual clique, and become simply an ordinary citizen. Many Jews in Russia have done just that, and it would indeed be the happiest thing for Jews everywhere. There is really no reason for the existence of the modern Jew, except that the banking and intellectual clique of Nineteenth Century Europe sought to organize the Jews into a power-grabbing clique. This is a procedure which must, finally, end in disaster.

The Jewish effort to dominate the Goyim by sheer intellectual power is foredoomed to disastrous failure. The whole proposition was tried all the way to its bitter end in Germany in the years between 1920 and 1945. The modern Jew, should, for his own sake, understand that he is engaged, under his present leaders, in a high-risk venture, which has no precedent and no good foundations in reality or possibility. The modern Jew is not the maker of the future; he is at the end of his rope. The Utopian schemes which proliferate among the Jewish intelligentsia are simply the expressions of a suicidal mentality. The suicidal Utopian is the heir of a bankrupt tradition. The Jews are not going to sit on the throne of the world. As of now, they are headed for some dark new Auschwitz, which even now exists at some future point in time. It exists primarily because it has been created by the Jews themselves.

The central problem of the modern Jew is that he has parted company with reality, (Continued on Page 3)
